Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicants' submission of Exhibit A in the 10/2/06 response clarified the originally taught "NBD" is a well known abbreviation for 7-Nitro-benz-2,1,3-oxadiazol. However, when the Office enter 7-Nitro-benz-2,1,3-oxadiazol into a "Chemdraw" program, it appears a different chemical composition was drawn that is presently claimed. Clarification could be achieved if Applicants could supply corroborating evidence the claimed structure is 7-Nitro-benz-2,1,3-oxadiazol.

Response to Arguments

Applicant's arguments filed 10/2/06 have been fully considered but they are not persuasive.

Applicants' submission of Exhibit A in the 10/2/06 response clarified the originally taught "NBD" is a well known abbreviation for 7-Nitro-benz-2,1,3-oxadiazol and this rejection has been overcome. However, Applicants are silent if the claimed structure is 7-Nitro-benz-2,1,3-oxadiazol. Clarification could be achieved if Applicants could supply

corroborating evidence the claimed structure is 7-Nitro-benz-2,1,3-oxadiazol.

Additionally, Applicants need to place the references cited in Exhibit A on a PTOL-1449 so they maybe properly made of record. The Office will considered such an IDS after final as these references are only being cited to corroborate the abbreviation "NBD" and 7-Nitro-benz-2,1,3-oxadiazol.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lyle A. Alexander whose telephone number is 571-272-1254. The examiner can normally be reached on Monday, Wednesday and Friday.
